

Conference Report

The Second Tribeca Future Facing Commodities Conference was an outstanding success.

Building upon the success of our inaugural event, this year's conference featured enhanced key services and a broader scope. We expanded participation to include more country government agencies, diversified projects catering to mid and downstream industry sectors, and engaged Asian investment communities. These developments were showcased through seven themed panel sessions and numerous keynote presentations.

This year's event included:

- 18 Sponsors
- 10 Supporting Organisations
- 72 Exhibitors and Panellists
- 70 Presenters
- 26 Panel Session Speakers

Plus, over 1100 registered delegates on the conference floor, visuals of this can be seen in the Conference Video and Photo Gallery.

Regarding social media, the overwhelming positivity reflected in posts across various popular platforms was remarkable. We're excited by the post-conference viewership numbers. To date, 12,000 views on YouTube, complemented by 2,000 livestream views. Notably, viewers from nineteen different countries have engaged with our content thus far. We sincerely thank the numerous delegates who took the time to share their thoughts and experiences about the conference online.

We would like to express our appreciation to Keynote Speakers (Ashley Zumwalt Forbes, US Deputy Director for Batteries and Critical Minerals, Henry Sanderson and Michael Finch from Benchmark Mineral Intelligence, Joe Lowry - Mr Lithium, Andrew Hoare from Marine Fortescue, and all the panellists, and the ASX listed companies for making this event such a success.

We express our appreciation to our distinguished breakfast speaker, Mr. Steven Okun, Welcome address by His Excellency Allaster Cox, the Australian High Commissioner to Singapore, and Eric Tan, representing function sponsor, the Government of Western Australia.

We want to sincerely thank our Founding Sponsors: Tribeca Capital, Argonaut, and North Point Equity. Your unwavering support and active involvement in this event have been instrumental in its success. Special gratitude goes to Scott Clements and Adam Lavis from Tribeca for their invaluable expertise and extensive investment network, which played a pivotal role in ensuring the conference's success.
